5 - Data usage

A daily data limit is applied. Read more at:
- **witourist.com** (online booking);
- **witourist.com/affiliated** (devices offered directly by our affiliated companies).

The data is monitored on 24 hours basis (e.g. today at 3:00 PM, the data is monitored from yesterday at 3:00 PM).

If the limit is exceeded, the data connection is disabled until 00:00 UTC and the SIGNAL led turns red. At 00:00 UTC the data connection is re-enabled automatically.

If you plan to use data intensively (e.g. peer to peer or prolonged streaming), we suggest you monitor the "WiFi data usage" on your own connected devices.
